

Skills

Hard Skills: HTML/CSS, Python, Java, Wireframing, Figma
Soft Skills: Time Management, Decision-Making

Work Experience

Full Stack Development - Coding Blocks

Oct 2025 - Nov 2025

HTML/CSS, React.js, MongoDB, JavaScript

- Built responsive web applications, gaining hands-on experience in front-end and back-end development
- Worked with APIs and integrated databases, enhancing practical knowledge of application development
- Completed a summer training program, improving skills in web development and application integration

Technical Projects

Portfolio

HTML/CSS, JavaScript

[🔗 Live Demo](#)

I designed and built my personal portfolio website to highlight my skills, completed courses, and projects. The website showcases my skills in web development, UI/UX design, and content organisation. It serves as a professional platform for recruiters and collaborators to learn about my work and achievements.

Student Dashboard

HTML/CSS, JavaScript

[🔗 Live Demo](#)

- The project provides an easy way to manage student records, making data handling straightforward.
- It allows users to add, view, and delete student details efficiently.
- Designed to improve organization and simplify basic record operations.

Banking Application Prototype

Wireframing, Figma

[🔗 Live Demo](#)

- Developed a banking app prototype with user-friendly navigation and responsive design, improving usability.
- Created wireframes and interactive prototypes to visualize account management and transaction flows.
- Focused on clean visual design principles to enhance the overall user experience.

2026

Problem Solving & Data Structures

I possess foundational knowledge of Data Structures and Algorithms in C++ and Java, with practical experience in arrays, strings, linked lists, stacks, queues, and trees. I am familiar with sorting and searching techniques, as well as implementing simple recursion, enabling me to analyze and optimize code efficiency for problem-solving tasks.

Education

Hindustan College Of Arts & Science	
BCA (2023 - 2026)	
Blessings Matriculation Higher Secondary School	
Class XII (2023)	Percentage: 73
Blessings Matriculation Higher Secondary School	
Class X (2021)	Percentage: 70

Certifications

- [Prompt Engineering Mastery](#) - Sunstone School of Technology (May 2026)
- [UI/UX Professional Certification](#) - Sunstone School of Technology (April 2026)
- [SQL Pro: AI-Powered Querying](#) - Sunstone School of Technology (April 2026)
- [Full Stack Development](#) - NoviTech Private Limited (December 2025 - January 2026)
Skills learned: HTML/CSS, JavaScript, Adobe Illustrator, Figma, Adobe XD
- [Advanced JavaScript](#) - Sunstone School of Technology (June 2025)
